ASSIGNMENT 2 — Q3 — Math Utility Dashboard

Instructions: Save this solution in its own .js file. Run it in Node.js or the browser console.

```
"use strict";
const x = 16.75;
const rounded = Math.round(x);
const squareRoot = Math.sqrt(x);
const cube = Math.pow(x, 3);
const randomNumber = Math.floor(Math.random() * 41) + 10;
console.log(`
Math Utility Dashboard
Input: ${x}
Rounded value: ${rounded}
Square root: ${squareRoot}
Power (x^3): ${cube}
Random number (10–50): ${randomNumber}
`);
```

Explanation: Math.round rounds to the nearest integer, Math.sqrt calculates the square root, Math.pow(x, 3) calculates the cube, and the random formula returns an integer from 10 to 50.
